

PANDUAN PENGGUNAAN

VPN

UNTUK PERANGKAT MACBOOK

1) Download aplikasi OpenVPN Connect melalui link <https://openvpn.net/client-connect-vpn-for-mac-os/> lalu klik download

The screenshot shows the official OpenVPN Connect client software page for macOS. At the top, there's a navigation bar with links for Update, New in CloudConnexa™: DIVE, Search, Support, Partner with us, and Login. Below the navigation is a main menu with links for OPENVPN, Solutions, Products, Pricing, Resources, and Community, along with Get Started and Request Demo buttons. A large banner in the center features the text "OFFICIAL OPENVPN CONNECT CLIENT PROGRAM" and "OpenVPN Connect for macOS". Below the banner, a paragraph explains the software is developed by OpenVPN Inc. and recommended for the OpenVPN Access Server. It also mentions the latest version available. A red arrow points to the "Download OpenVPN Connect v3" button, which is highlighted with an orange border. To the right of the button, a small note provides the SHA256 signature. At the bottom, it specifies compatibility with various macOS versions. A "Bantuan" (Help) button is located in the bottom right corner.
